

3.1 Product System

Products are reorganized into a tiered system based on level of engagement and customization

1 / INDIVIDUAL PRODUCTS

Low commitment entry points
Used as add-ons within a larger system

- Shoelaces, charms, bows
- Flexible, mixable components

2 / CURATED SETS

Pre-designed combinations
For faster selection and themed styling

- Bundled by aesthetic or occasion
- Introduces combination logic

3 / CUSTOMIZABLE SETS

Core product offering
Users select and combine elements
To build their own configuration

- Multiple build levels (5, 10, full set)
- Products function as modular parts

4 / MYSTERY SETS

Exploratory and low-friction entry

- Randomized or themed selections
- Encourages discovery and trial
